

VIVA-320

Features

1. Triangular supportive seat shape helps the users get closer to the patient for those close up examinations or intricate operations.
2. VIVA with comfort ergonomic back pad offering practical support and "wipe clean" upholstery for the medical professional.
3. High density comfort foam incorporating the triangular shaped seat with frontal bolster for added comfort.
4. Multi-function mechanism for independent adjustment of seat and back with infinite locking.
5. Foot operated seat height adjustment as optional extras.

Stool Functions

Seat Height

The height of the seat can be adjusted by pulling the seat height lever upwards and releasing to desired height while the occupant takes their weight off the stool.

Seat Tilt

The seat has 5 degrees of forward and 6 degrees of rearward tilt. Push the handle downwards to "free float" the movement and lift upwards to lock in any position.

Back Movement

The back has 10 degrees of forward movement and 14 degrees of rearward. Push the lever downwards to "free float" and lift upwards to lock in any position.

Back Height

The height of the back may be adjusted by loosening adjustment knob and sliding the upright tube up/down and held in place by hand tightening adjustment knob.
