

# MICA

An anatomical saddle stool with a much wider seat to accommodate all users in comfort. The MICA comes in just the saddle seat format or is available with backrest and support arms to suit all medical/dental tasks.

## Features

1. Available with 3 different multi-functional mechanisms to suit all working positions.
  - a). MICA-101: Cradle dynamic swinging.
  - b). MICA-201: Seat tilting only.
  - c). MICA-301: Seat and back tilt/movement.
2. Seamless upholstery combined with high quality comfort foam and vinyl for the "wipe clean" environment.
3. Adjustable arm rests and "hands free" foot operated seat height control are available as options.

## Stool Functions

### Seat Height

The height of the seat can be adjusted by pulling the seat height lever upwards and releasing to desired height while the occupants take their weight off the stool.

### Seat Tilt

The seat has 5 degrees of forward and 6 degrees of rearward tilt. Push the handle downwards to "free float" the movement and lift upwards to lock in any position.

### Back Movement

The back has 10 degrees of forward movement and 14 degrees of rearward. Push the lever downwards to "free float" and lift upwards to lock in any position.

### Back Height

The height of the back may be adjusted by loosening adjustment knob and sliding the flat bar up/down and held in place by hand tightening adjustment knob.
